

Do You Know the 1000 Year Story of Health?

Western doctors fight disease by burning cutting and poisoning a disease and distributing pills. Meanwhile the Japanese lived longest and the US ranked 38th 4 years ago and now 49th in the world for longevity. Health groups are predicting that the next generation won't outlive ours. Japanese hospitals are non-profit and their doctors only get paid when you are well so prevention is a major part of their health care. Take this test to find out how much you really know and then send it to others that you care about or sick relatives.

1. Who lives the longest? (place them in order from longest living shortest)
 - A. Hunzas
 - B. Japanese
 - C. US
 - D. Puerto Rico
 - E. Costa Rica
 - F. Cuba
2. T or F: Western Doctors get paid only when you are sick?
3. T or F Western Hospitals are non profit and lead the world in preventive medicine?
4. Yes or No – Is the information available to doctors and Fundraisers to know “How to Cure Cancer?”
5. In which year did we first know how to stop cancer?
 - A. 1998
 - B. 1948
 - C. 1931
 - D. 1898
6. T or F: Cancerous tissues are acidic and oxygen deprivation aids growth?
7. T or F: Healthy tissues are alkaline?
8. T or F: NO disease can grow in an alkaline body and disease doesn't grow well in oxygen?
9. Yes or No: Does the statement in 8 also pertain to all diseases?
10. How many wells have been identified where people have been drinking high alkaline, micro-clustered with extra electrons to neutralize free radical damage and the water is many times more anti-oxidant than Green Tea? These drinkers lived the longest with substantially better health over 1000's of years.
 - A. 11
 - B. 7
 - C. 5
 - D. 29

E. 37

11. Which wells are identified in the 1950's Russian water study?
 - A. Lourdes France
 - B. Nordenau Germany
 - C. Tlacote Mexico
 - D. Pakistan Wells
 - E. Rainier Water
 - F. Fiji Water
12. Who made the Tlacote Mexico Well famous and Why?
 - A. Marilyn Monroe
 - B. Magic Johnson
 - C. Babe Ruth
 - D. President Obama
 - E. President Bush
13. Which of the following is true?
 - A. No disease can live in an alkaline body
 - B. All disease needs acidity to grow
 - C. Oxygen deprivation increases disease growth
 - D. High body temperature can kill disease
 - E. High Body Alkaline levels can stop cancer growth
 - F. Bottled water is healthier than tap water
 - G. Tap water has 3 known poisons
 - H. Bottled Water complies with the laws
 - I. The FDA regulates Bottled Water
 - J. The bottle waters are tested and we know where they came from and what is in them
 - K. "Pure" water is Reverse Osmosis water filtered water with nothing in it.
 - L. Reverse Osmosis water is missing minerals that the body needs to process food
 - M. After drinking RO water it flushes calcium, potassium and magnesium from your body
 - N. Soda has one of the lowest acid
 - O. Soda ages you face and body the most and more than bottled water
14. Oxidation Reduction Potential which should be read backwards to understand it is the aging of an apple or the body. Place these in order of most oxidation to least
 - A. Vitamin C
 - B. Cod Liver Oil
 - C. Bottled water
 - D. Soda
 - E. Green Tea
 - F. "Kangen" Water
 - G. Gatorade and vitamin water
15. Which is true? Japan has high alkaline water machines in homes? They drink the most alkaline water in the world per capita (per person) and they live longest too with less disease!

- A. 1 out of every 25 homes
 - B. 1 out of every 50 homes
 - C. 1 out of 5 every homes
 - D. 1 in hundreds of hospitals and treatment centers
 - E. Some hospitals have a Kangen alkaline machine in every room
16. T or F: Water can kill 99.9999% of all bacteria in 30 to 60 seconds?
17. T or F: Oil and water will mix?
18. T or F: Vegetables can be cleaned with your water?
19. Name it: Recently a big fundraiser for the democrats was dying of cancer. They tested his cancer and found what worked best on it but the doctors were not able to prescribe it because of this! Finally in desperation they went to Pelosi (X Speaker of House now) and she got a prescription for it from somewhere probably out of the US but he died within the week. So even we know what needs to be done it can't and this is the cause. This is preventing our doctors from discussing, recommending or prescribing anything even when a doctor knows what is needed. Alkaline water has a financing plan in Canada when prescribed by a Canadian Doctor but the US protects Big Pharma. Do you want to live longest with the best health care or be where the US ranks and declining?
20. T or F: The FDA has knowledge that many products work on disease but they are deliberately not allowed to say they can XXXX a disease. The FDA in the US has been sued 7 times all by one person and lost 7 times. For decades they have prevented free speech guaranteed us by the Constitution in the name of Big Pharma. On August 4, 2009, the selenium-cancer risk reduction petitioners Alliance for Natural Health, Durk Pearson and Sandy Shaw, and the Coalition to End FDA and FTC Censorship, sued the FDA for its decision to censor the selenium claims on Cancer. On May 27, 2010, Judge Ellen Segal Huvelle of the United States District Court for the District of Columbia issued a landmark decision condemning the FDA's censorship.

After this victory over FDA censorship, the agency recoiled, as it had once before on the heels of First Amendment decisions against It when it initially allowed two selenium claims. This time, following negotiations with the Plaintiffs, It allowed use of the following claims on selenium-containing dietary supplements:

Prostate Cancer Claim

"Selenium may reduce the risk of prostate cancer. Scientific evidence concerning this claim is inconclusive. Based on its review, FDA does not agree that selenium may reduce the risk of prostate cancer."

Colon and Rectal Cancer Claim

"Selenium may reduce the risk of colon cancer. Scientific evidence concerning this claim is inconclusive. Based on its review, FDA does not agree that selenium may reduce the risk of colon cancer."

And

"Selenium may reduce the risk of colorectal cancer. Scientific evidence concerning this claim is inconclusive.

Based on its review, FDA does not agree that selenium may reduce the risk of colorectal cancer." And Selenium may reduce the risk of colon and rectal cancer. Scientific evidence concerning this claim is inconclusive.

Based on its review, FDA does not agree that selenium may reduce the risk of colon and rectal Cancer." Certain Cancers Claim and Anti-carcinogenic

Effects Claim

Selenium may reduce the risk of bladder, colon, prostate, rectal, and thyroid cancers. Scientific evidence concerning this claim is inconclusive. Based on its review, FDA does not agree that selenium may reduce the risk of these cancers."

The Battle to End FDA Censorship is Far From Over

ANSWERS

1. A, B, E,D,F,C. Is this a surprise? Verify at United Nations website
2. True
3. True
4. Yes
5. Since the 1931
6. True
7. True
8. True
9. Yes - Nobel winner - Otto Warburg - "What is Cancer" So why are they asking for donations to find the cure? Is this a money grab?
10. B Google: Lourdes France miracle water , Nordenau Germany, Tlacote Mexico and the Hunzas in the high mountains in Pakistan
11. ABCD
12. B The daily crowds increased from 5,000 people a day to over 20,000 after he made his statement about HIV and no growth. Google Tlacote Mexico.
13. Answer A,B,C,D,E,G -Chlorine, Fluoride(heavy metal made from aluminum extrusion makes water pipes last longer not your teeth and recently the government is limiting its use). We are

the only country in the world using Fluoride in water. In 1947 the president of Alcoa Aluminum was advising the President and was paying a huge expensive to throw hazardous waste away and Lye which is pH 13 is used to raise tap water to 6.8 to 7.2pH. K, L, M, N and O are true

F, H, J is not true see the 2011 Bottled Water Report Card, I is the EPA not the FDA,

14. GDCAEBF Depending on the source water (excluding Tucson AZ) Kangen is between 4 to 12 times more anti-oxidant than Green Tea
15. C Actually 4.7 homes. They had 138,000,000 population before the quake
16. T - 2.5pH water kills 99.9999% of bacteria in 30 to 60 seconds and has been used for 36 years in Japanese Hospitals to sterilize hospital rooms, surgical instruments and surgeon's hands. It eliminates the use of bleach and ammonia and its skin and lung problems. Want to stop Ecoli and salmonella just dunk your food in it for 30 seconds! Our flagship home machine is \$3980 and it's the one I have. The other machines I recommend is the commercial machine at \$5980 and others start at just \$1280. The SD501 typically lasts for decades in home use and can be rebuilt for decades more inexpensively.
17. T - 11.5 pH will emulsify oil. You can see the 7 pH waters at the left and you can Google for ABC7 and search ADHD and pesticides and see the video about our children and ADHD because herbicides and pesticides are being ingested with oil based pesticides. Thank you Government for allowing oil based pesticides. Today 30,000 restaurants are using this to improve food taste.
18. F - Today pesticides and herbicides are put on with oil and water will not remove oil unless 11.5 pH. We have 83,000 chemicals in use and 5 have been regulated in the last 30 years by our EPA!
19. The "Standards of Care" and "Hepic Codes" are written by "Big Pharma" and states "an oriental machine with electronics" cannot be in health discussions, being prescribed or financed like Canada. Recently one of the best fund raisers for the Democrats was dying of cancer. The doctors tested it and found what help it best but the "Hepic Codes stopped them from prescribing it. Finally they went to Pelosi and got it approved but his time had run out. Thanks big Pharma for protecting your pill sales like you did in Obama Health Care by making sure our insurance has to buy your pills at higher US pricing instead of lower pricing outside the US!
20. Sad but true see it all in the articles area.
